## EXPERIENCE

### Software Engineer | IT Support Specialist

#### Metrock Enterprises

07/2023 - Present Imo, Nigeria

- Developed and maintained software systems that optimized the company's business operations. For instance, I improved the user experience by implementing best practices that ensured the company's in-house software loaded two times faster.
- Designed, coded, tested, and debugged software programs that enabled the company to increase its efficiency, reduce costs, and improve user experience.
- Researched and implemented cutting-edge technologies and industry best practices to drive innovation within the company's software solutions, ensuring that the company remained competitive in its industry and met future business needs.
- Provided after hours and on-call IT support as required and ensured 24x7 availability.

### Software Engineer

#### Taikezz Consultancy Service

04/2023 - 06/2023 Ogun, Nigeria

- Boosted the firm's online visibility and sales of its products and services by almost 40% within the first month of deployment.
- This achievement was realized through the implementation of Search Engine Optimization (SEO) best practices during the development of the company's website.
- For instance, as a result, the company successfully sold a featured real estate property a few days after its website deployment.
- Due to the success of this project, the company contracted me once again to develop its e-commerce website.

### Software Engineer Intern

#### Upperlink Limited

03/2022 - 07/2023 Lagos, Nigeria

- Crafted elegant, best-practice-driven code for websites and apps, from conception to deployment.
- Rigorously assessed UX/UI designs to ensure delightful user experiences and technical feasibility.
- Spearheaded API development for seamless data exchange, boosting the versatility of digital solutions.
- Utilized authoring and scripting languages, along with cutting-edge content creation tools, to craft captivating websites that engaged and inspired.
- Collaborated closely with cross-functional product teams to bring innovative features to life, enriching the user experience.

### WordPress Developer

#### Freelancer

11/2019 - 03/2022 Ogun, Nigeria

- Designed, developed, debugged, and deployed a Content Management System for a college.

## EDUCATION

### Bachelor of Computer Science

#### IU International University of Applied Sciences (Remote)

2023 - Present

## SUMMARY

I am a tech-savvy professional skilled in issue analysis and resolution. My commitment to continuous learning and up-to-date knowledge in software development enables me to adapt swiftly. I excel in quick skill acquisition and emphasize meticulous, technically sound problem-solving. With a demonstrated history of delivering clean, user-friendly enterprise solutions, I am prepared to address industry's evolving demands.
